- Küryakyn shall have no obligation in the event the customer is unable to provide a receipt showing the date the customer purchased the product(s).
- The product must be properly installed, maintained and operated under normal conditions.
- Küryakyn makes no warranty, expressed or implied, with respect to any gold plated products.
- Küryakyn shall not be liable for any consequential and incidental damages, including labor and paint, resulting from failure of a Küryakyn product, failure to deliver, delay in delivery, delivery in nonconforming condition, or for any breach of contract or duty between Küryakyn and a customer.
- Küryakyn products are often intended for use in specific applications. Küryakyn makes no warranty if a Küryakyn product is used in applications other than intended.
- Küryakyn electrical products are warranted for one (1) year from the date of purchase by the consumer. L.E.D.'S contained in components of Küryakyn products will be warranted for defects in materials and workmanship for 3 years from the date of purchase where as all other components shall be warranted for one(1) year. This includes, but is not limited to; control modules, wiring, chrome & other components.
- Küryakyn makes no warranty of any kind in regard to other manufacturer's products distributed by Küryakyn. Küryakyn will pass on all warranties made by the manufacturer and where possible, will expedite the claim on behalf of the customer, but ultimately, responsibility for disposition of the warranty claim lies with the manufacturer.

STEP 2 Remove the mirrors from the hand controls as outlined in the service manual.

NOTICE

Ensure the area of installation is free of grease, oil, dirt or other debris including wax/polish products and bugs to ensure proper adhesion. Küryakyn WILL NOT issue a warranty on any parts lost due to improper installation.

STEP 3 Thoroughly clean the front side (PIC 1) of both mirrors with soapy water and a clean rag. Dry completely. Wipe the mirrors with the included alcohol pads to remove any residue.

STEP 4 Test fit one of the Flamed Mirror Accents to the back of one of the mirrors. PIC 2 Make any reference marks with a non-permanent marker or masking tape.

NOTICE

The adhesive will not bond correctly if applied at temperatures less than 50°F. Do not attempt this installation in temperatures less than 50°F.

STEP 5 Rub the adhesive backing with your fingernail to activate the adhesive. Remove the backing, and using any reference marks made in Step 4, attach the Flame Mirror Accent to the front of the mirror. PIC 3 Press in place for one minute. Full bonding will occur in 24 hours.

NOTE: If the motorcycle is to be operated before the 24 hour cure time has expired, use a good quality masking or painter's tape over the Accent to assist in holding the Accent in place until the cure time is over.

STEP 6 Repeat Steps 4 and 5 for the other mirror.

STEP 7 Install the mirrors back on the motorcycle as outlined in the service manual.

STEP 8 Adjust the mirrors for proper view before riding the motorcycle.

Use care when cleaning or adjusting the mirrors after installation. The flame fingers of the mirror cover may catch on cleaning material, riding apparel or skin causing injury.

NOTICE

It is the installer's responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Küryakyn will not provide warranty coverage on products or components lost due to improper installation or lack of maintenance. Periodic inspection and maintenance are required on all fasteners.
